No longer needed road signs – B1074 Somerleyton

The B1074 has two dangerous corners in Somerleyton – Green Corner and at the junction with Market Lane. Although these corners are within the 30mph speed limit area their acute angles can be a surprise to motorists and the least distraction provided the better. Some years ago the Parish Council worked successfully with Suffolk Highways to reduce the clutter of signs at these locations in order to reduce driver distraction.

The recent new signs indicating the School Safety Zone are to be welcomed but the existing School signs remain in place leading to unnecessary distraction for drivers. I propose that the Parish Council requests that Suffolk Highways remove the now redundant signs.
