Hi Sue,

I spoke with Simon a few weeks back about applying for some funding from the community fund that was mentioned at the most recent parish council meeting. He told me to send you a message outlining what the funding will be used for.

So, I would like to apply for some funding for the purchase of backing music for the somerleyton Community Choir, and also to go towards some village hall hire if any weeks drop below the minimum needed to fund the hall fee. I would like to request £50 initially, which will enable me to purchase backing music tracks to match the songs that we have already been learning. The Community Choir is open to absolutely anybody and has been successful since its inception in May 2024. We will be performing at Fritton Church in September and will continue learning songs to be used if any future performance opportunities arise.

I hope that is enough information to be considered for some funding.

Thank you, Bim.
