ASHBY HERRINGFLEET AND SOMERLEYTON PARISH COUNCIL
GREEN AND ENVIRONMENT GROUP

The next event for the group is Recycling Day on 27th September – this has been planned as part of National Recycling Week – no doubt you will have seen the eye catching posters designed by Lindsay. Steve will be giving a presentation on the changes to the current system and East Suffolk Council will also have advice and information. Somerleyton Men's Shed will be joining us to " Up Cycle"

We are advertising this widely and hope that there will be support for this important initiative.

We will be selling refreshments and expect to cover our costs – however could we request that the Parish Council underwrites any short fall? It would also be helpful if we could use the Warm Hub teas and coffee supplies. As usual we would be very grateful for offers of help on the day and cakes.

I am discussing with Kelvin and Michelle from the Estate a walk in October/November with refreshments afterwards in the Tearooms. I feel this would promote a constructive relationship with the Estate in the future.

Once again we plan a Star Count with the school in February half term – 3rd time lucky!

We are enormously appreciative of the leadership and hard work of Gerda Gibbs taking the group forward and always her guidance to make sure we did everything "by the book" Thank you dear Gerda!

Sally Phillips has now joined our Group – however we would be pleased to welcome to the Group members of the community who would like to support our vital work.

Doug Owen
